

What will it take?

- Not only design processes for citizen engagement but orchestrate and empower an **ecosystem of participation in your city** (Ross and Moran, 2022).
- **Focus on process, not just output.** It is essential for long-term systemic change.
- **Don't rush in; there are no quick fixes.**
- **Focus on building a just and democratic transition.** Engage global and local actors — everybody enabling the climate transition in your city.

This project has received funding from the H2020 Research and Innovation Programme under grant agreement n°101036519.

Some of the things you told us you would like to learn about at the Kick-off Event

Knowledge sharing

- Exchange of practices/information To get inspired Bratislava
- Good solutions that are implemented How to face barriers to implementation Knowledge sharing Maria, Lisbon
- Addressing key practical challenges: -reducing cars -building retrofits -internal reorganization Jordi, Valencia
- How to be concrete, accelerate Murat, Rotterdam
- Another perspective Paul, Frankfurt
- How to measure progress Doydas, Taurage Lithuania
- Innovative approaches in technology, especially transport and waste Josef, Liberec, Czech Republic
- Transport and citizen engagement Elin, Gävle
- How to turn obstacles into opportunities, Sabrina, Dublin Ireland
- Connect with cities with similar climate conditions, inputs, political systems Claire, Dublin
- Examples of successful stories for citizens Wolfgang, Karlsruhe

Practical Solutions
