

- **Impact Logic Expert**– An individual familiar with the Impact Logic (aka Theory of Change) and how the action portfolio, emission domains, systemic levers, impact pathways, and indicators link together to support cities in their MEL.
- **Liaison to Reporting Platforms** – An individual with a good understanding of existing platforms such as CDP-ICLEI Track and MyCovenant. It is highly recommended that this is an individual from EuC as they are the contract owners between NZC and CDP, as well as NZC and Akaryon (Covenant of Mayors technical team) through SGA T5.4.
- **Liaison to Joint Research Centre** – An individual who is engaged in conversations with the JRC and can bring the questions and discussions of the sub-committee to the JRC and vice versa.
- **Pilot Cities Programme MEL expert** – This individual must have a strong understanding and involvement with setting of MEL best practices and MEL requirements within PCR. Highly recommended that this is an individual with a strong presence in NZC WP4 and/or SGA WP3.
- **City Support Expert** – An individual engaged in city support and able to bring the cities' perspective to data, impact, and monitoring related matters.
- **2 x Rotating Volunteers** – This option is open to anyone from within the consortium, ideally with an interest or background in the subject area.

AWAITING APPROVAL BY THE EUROPEAN COMMISSION
