Dates

27-29 May 2026

Locations

- The Conference will take place at **OGR Torino**.
 - Address of the venue: Corso Castelfidardo 22, Torino.
- Some of the parallel sessions will take place at **Cottino Social Impact Campus** (a two-minute walk from OGR Torino).
 - Address of the venue: Corso Castelfidardo 30/A, Torino.

Event language

The event will be held in **English**. Translation services will not be provided.

Livestream

The Plenary Sessions will be livestreamed on [NetZeroCities'YouTube channel](#).

Wi-Fi

Network name: CitiesMissionConference

Password: CityTorino2026!

Conference app

The Cities Mission Conference 2026 app will be accessible via the Canapii platform. Download the event app by clicking on the link below or scanning the QR code:

[App Store](#)

[Google Play](#)

Audiovisual material

The Conference will be comprehensively filmed and photographed. By entering the Conference area, **you allow the organisers to use your image and audio** that may be captured at the venue. You also allow them to publish, distribute and reproduce this material free of charge.

Purpose of the Conference

Building on momentum from previous editions, **the Cities Mission Conference 2026 prioritises practical support, stronger collaboration, and the enabling conditions cities need for systemic change.** Positioned between the first implementation of results and the acceleration phase towards 2030, the Conference will help set the stage for sustained climate action towards and beyond 2030.

COTTINO SOCIAL IMPACT CAMPUS

Politecnico di Torino

Funded by the European Union

The programme will be regularly updated on the [NetZeroCities website](#) and on the Canapii app.

Day 1 - Wednesday 27 May: City Dives

The Mission Conference will kick off **in the afternoon of Wednesday, 27 May 2026**, with a "Conferenza Diffusa" - a distributed, open-air format that moves beyond traditional venues and into Torino's urban landscape. Inspired by Italy's "Museo Diffuso" tradition, this approach immerses participants in real-world climate solutions, turning the City itself into a living laboratory.

Through these City Dives, **attendees will explore sites emblematic of Torino's Climate City Contract**, engaging directly with local projects and exchanging experiences with peers from other Mission Cities. All City Dives will start from OGR Torino as the meeting point at 1:30 pm. From there, participants will either be taken by bus to the destination or proceed on foot if the location is nearby. The exact meeting points and schedules will be communicated after registration to the City Dives.

Participants are encouraged to arrive in Torino in the morning of Wednesday 27 to have enough time to reach the meeting point at OGR Torino at 1:30 pm.

All City Dives are aligned with one or more Conference tracks and addressing one of the following topics:

City Dives 1-4	Energy Transition, data and innovation
City Dives 5-7	Responsive Urban Regeneration
City Dives 8-10	Nature, Adaptation & Circular Urban Systems
City Dives 11-14	People, Place & Social Impact

Find out more [here](#) about the City Dives

Days 2 and 3 - Thursday 28 and Friday 29 May

The rest of the Conference will be structured through plenary and parallel sessions, alternating with networking opportunities. The programme will focus on four thematic tracks addressing key challenges and opportunities in accelerating the transition towards climate neutrality and resilience.

- **Track 1, Innovative Finance**, will explore how cities translate climate ambition into concrete and bankable projects through financing mechanisms, investment strategies, and partnerships that mobilise public and private capital.
- **Track 2, Deploying Solutions**, will focus on implementation, highlighting governance models and collaborative approaches that enable cities to deliver integrated climate actions and scale effective solutions.
- **Track 3, Strategic Engagement**, will examine how multi-level governance, policy alignment, and partnerships with private sector and stakeholders support cities in overcoming regulatory barriers and accelerating climate transition.
- **Track 4, Mission Impact & Climate City Contract Iterations**, will highlight how cities measure and communicate progress through tools, methodologies, and peer learning processes that transform ambition into measurable impact.

The Conference will bring together representatives from European institutions, financial organisations, research bodies, business networks, and civil society to exchange experiences and share best practices towards climate-neutral urban futures.

Please note that the precise track wording is subject to slight adjustment once the full programme is confirmed.

Dinner

On **Thursday, 28 May**, at 20:00, the **City of Torino** will host an **exclusive dinner and drinks reception** at Combo Torino, located at Corso Regina Margherita, 128, 10152 Torino TO.

A note on the final day of the Conference

A national strike is planned in Italy on Friday, 29 May, which may affect some long- and medium-distance trains. Current expectations are for limited rather than widespread disruption. If you are travelling that

day, we recommend checking your rail status before departure and allowing a little extra travel time. Where possible, flexible departure times - or travelling on 30 May - may help avoid delays. You can check [Trenitalia/Info Traffic](#) and [Trainline](#) for live updates on rail services, and the [GTT website](#) for updates on local transport.

About Torino

Lively and elegant, always in motion yet unexpectedly green, Torino is a city that often surprises first-time visitors. Home to nearly 861,000 people, it stretches across tree-lined avenues, large parks, and riverside paths, resting gently between the hills and the Po River, with the Western Alps rising in the background. More than two thousand years old, Torino began as a Roman settlement -*Julia Augusta Taurinorum*- and later became the first capital of Italy. Its long history is still visible today in grand squares, underground remains and royal residences and palaces designated as UNESCO World Heritage Sites. **Yet Torino is far from living in the past.** It has continuously reinvented itself, emerging as one of Italy's most important economic and cultural centres.

Traditionally known as the heart of the Italian automobile industry, **the city is now a dynamic hub for universities, research, design, cinema, food and wine, aerospace, fashion, and artificial intelligence.** Major events such as the 2006 Winter Olympics have helped shape its modern identity and international outlook. Torino balances rational Roman urban planning, refined Baroque architecture, and bold contemporary design with multicultural neighborhoods, historic cafés, and vibrant cultural life. It is a city to be discovered slowly, lived fully, and appreciated through both its iconic landmarks and its small, everyday pleasures—a city you may not expect, but one that quietly leaves a lasting impression.

Torino is committed to sustainability and improving quality of life: the city has one of Italy's largest urban green systems, with parks, a protected river corridor, and growing cycling and soft mobility networks. Ongoing efforts in climate adaptation, urban regeneration and innovative mobility show the city's dedication to a greener, more resilient future.

Torino's Climate City Contract can be found on the [NetZeroCities Knowledge Repository](#).

© Enrico Aretini

Getting to Torino

Torino is easily accessible by a range of travel modes, including train, bus/coach, and plane. We encourage you to select the least impactful way to travel to the Conference.

Why travel by train?

Torino is very easily reachable by train, and **we strongly recommend you use this means of transport, if logistically feasible**. Torino is an important railway junction, especially for fast connections throughout Italy and part of Europe on the Lyon-Paris line with trains Frecciarossa, Frecciabianca, Italo and TGV. Approximately **30% of Mission Cities** can reach Torino by train within a day journey (under 12 hours), particularly cities in Italy, France, Germany, Belgium, the Netherlands or even further afield. If you're travelling from more distant locations, overnight trains or adding an extra day can make rail travel feasible and enjoyable for those who are able to consider this.

There are six stations in town, two of them international:

- Porta Nuova - Corso Vittorio Emanuele II 53
- Porta Susa - Corso Bolzano
- For information and timetables of trains:
Trenitalia - www.trenitalia.com
NTV - Italo - www.italotreno.it
GTT - SFM - www.sfmtorino.it
SNCF - TGV - www.tgv-europe.com/it

Planning your journey

Booking platforms and resources

- **Seat61.com** - Excellent advice on long-distance train travel connections, especially for northern European travellers
- **Trainline app** - Good international travel connections and booking
- **Rail Planner app** - Easy-to-use journey planning (download the app for best experience)
- **Interrail tickets** - Cost-effective option for flexible long-distance travel via train across Europe.

Key booking tips

- Book as much as feasible in advance for best prices and availability
- Many routes involve 1-2 changes - allow adequate connection time
- Consider overnight trains for cities 12-18 hours away
- EU rail passes (Interrail/Eurail) can be cost-effective for multi-stop journeys

Team Up En Route!

The Conference registration includes an option to indicate whether you would like to team up with other participants en route via potential meeting hubs. If you are interested, you will be invited to join a dedicated communication channel to coordinate and start exchanging ideas already on your way to the Conference. Please note that travel is not organised as part of this event. Please feel free to also reach out to mission.conference-europe@iclei.org for any questions or concerns on this matter.

Examples of group journeys to Vilnius for the Cities Mission Conference 2025

Example Routes from Major Travel Hubs

- **Brussels to Torino (via Lyon)**
 - Journey time: 8-10 hours
 - Route: Brussels-Midi → Lyon or Chambéry → Torino Porta Susa
- **Paris to Torino**
 - Journey time: 5.5-6 hours (direct)
 - Route: Paris Gare de Lyon → Torino Porta Nuova (direct TGV/Frecciarossa)
- **Munich to Torino**
 - Journey time: 8-9 hours
 - Route: Munich Hbf → Verona/Milan → Torino
- **Lyon to Torino**
 - Journey time: 4-5 hours
 - Route: Lyon Part-Dieu → Torino (via Frecciarossa or regional services)
- **Amsterdam to Torino**
 - Journey time: 10-11 hours
 - Route: Amsterdam Centraal → Paris Gare de Lyon → Torino Porta Susa
 - Also serves other Dutch Mission Cities
- **Marseille to Torino**
 - Journey time: 6-7 hours
 - Route: Marseille Saint-Charles → Nice → Torino (or via Lyon)

More Adventurous Routes

- **Barcelona to Torino**
 - Journey time: 10-12 hours
 - Route: Barcelona Sants → Lyon Part-Dieu → Torino, or via Valence/Chambéry
- **Ljubljana to Torino**
 - Journey time: 11-12 hours
 - Route: Ljubljana → Venice → Milano → Torino
- **London to Torino (via Paris)**
 - Journey time: 10-11 hours

- Route: London St Pancras → Paris Gare du Nord (Eurostar) → Paris Gare de Lyon (metro) → Torino Porta Susa

Additional Sustainable travel Options

By bus: FlixBus offers international routes connecting most major and medium-sized cities across Europe, providing an economical alternative to train travel. A group of participants used this option last year.

By bike: In past editions, some participants even travelled by bike over long distances! We will share some inspirational stories again in the run up to the Conference.

For very long-distance travellers

We recognise that for participants from Nordic, Baltic, Eastern European, Greek, Turkish, and other very distant cities, flying may be in many cases the most practical option.

Travel bursaries: we are looking into the feasibility of offering a limited number of travel bursaries for participants who wish to travel overland from very long distances but would not be able to do so otherwise. Further details and a dedicated application process will follow as soon as possible.

Offsetting: We are also looking into reputable offsetting options to be managed centrally, but these are likely to be available only for future editions of the Conference.

By plane

Torino Caselle Airport “Sandro Pertini” is located 16 kilometres from the city centre.

Connections from Torino Caselle Airport to the City Centre:

➤ Connection from the airport by train

The railway line connects the Airport with Torino Porta Susa station in about half an hour, 7 days a week.

- Departures from Torino Porta Susa: on weekdays, first departure at 05.01, last departure at 21.25.
- Departures from Torino Airport: on weekdays, first departure at 06.00, last departure at 22.28.

The airport station is located opposite the Arrivals area of the terminal.
Fare: €3.70 per passenger

More information on the [Trenitalia](https://www.trenitalia.com) website.

➤ Connection from the airport by bus

- Arriva Italia

The service runs every day of the year with trips every 15'/30' alternating between direct and road. In particular, the connection between the centre of Torino and the airport is guaranteed by the bus service with direct journeys, without intermediate stops, from the Porta Nuova and Porta Susa stations to the airport at minutes 0' and '30 from Porta Nuova on weekdays and at minutes '30 on Saturdays, Sundays and public holidays; departures from the airport to the Porta Susa and Porta Nuova stations with direct journeys are at minutes 15 and 45' on weekdays and at minutes '30' on Saturdays, Sundays and public holidays.

- Fare: One way €7.50 (+ €1.00 on board) - Round-trip €11.

- [Timetable](#)
- Departure: Piazza Carlo Felice 39
- Journey time: 45/50 minutes.

Tickets: at the ticket machine in the Arrivals Area; at the information and sales point for services dedicated to tourism in the Arrivals Area; on board (+ information and sales point for services dedicated to tourism €1.00). A contactless payment service is available on board the bus with credit cards or virtualised cards (on enabled smartphones) directly, skipping the queue at the ticket office, and at no additional cost.

Information: Single Contact Centre +39 035 28 9000.

- Flibco

The direct service operates every day of the year from 3.45 a.m. until midnight with rides every 30 minutes.

- First departure from Torino towards the airport is at 3:30 a.m. and last departure at 10:30 p.m.
- From the airport towards Torino, the first departure is at 4:45 a.m. and the last at midnight.
- Fare: from 3.99€ one way (online purchase); 6€ one way (ground purchase).
- Flexible tickets: flibco.com has a flexible ticket policy that allows tickets to be cancelled and rescheduled up to 6 hours in advance.

In addition, the same ticket can be used on the next chosen shuttle in the event of a flight delay.

- [Departure and arrival in Torino](#): Corso Vittorio Emanuele II 131 bus station, stop no. 5 (opposite Palagiustizia); Porta Nuova, Piazza Carlo Felice 18, at the corner with Via Roma (opposite the Vodafone shop).
- [Departure from the airport](#): Arrivals level, at the exit is the Flibco stop on the right. Journey time: 30 minutes

Tickets: available online; via the Flibco app; at the dedicated desk in the Arrivals Area; at official ticket offices; on board the bus.

- [Timetable](#)

➤ **Connection from the airport by taxi**

The public taxi rank is located on the left at the exit of the Arrivals level.

The taxi fare is about 40€ to reach downtown Torino, and the travel time is approximately 30 minutes.

- For information: TAXI TORINO: ph. +39.011.5730/37

Milano Airports

Milano Malpensa Airport

Torino City Centre can be easily reached by bus from Milano Malpensa Airport.

Trip duration: 2 hours

- **Arriva**
 - Fares: €22 single ticket, €39 round trip
 - [Timetable](#)
- **Flibco**
 - Fares: single ticket from €18
 - [Timetable](#)

Travelling around the City

Public Transport

GTT - Gruppo Torinese Trasporti - runs Torino's urban transport service with an efficient network of buses, trams, railways and an automatic underground line (the first driverless underground railway in Italy)

- [Journey Planner](#)
- [Map and Timetable of the Underground line](#)
- Mobile phone app GTT - TO Move

General Fares

- Single ticket € 1.90 digital / € 2.00 paper
- Daily - € 3.70 digital - € 4.50 paper
- MultiCity (6-city-ticket electronic carnet) € 11.80
- Special "Tour" ticket valid for 48h € 9.50
- Special "Tour" ticket valid for 72h € 12.50

Sustainable means of transport

Torino has **258 km of cycle paths** and a number of sustainable mobility solutions including bike sharing and e-scooter sharing. Maps, journey planner and sharing operators are available on [muoversiaTorino](#)

Taxi Torino

- Tel 0115730

Accommodation

Staying in the heart of the city allows you to immerse yourself in its historical and cultural atmosphere. At the following link you will be able to select the area of Torino you would like to stay in and find a list of accommodation options:

<https://turismotorino.org/en/visit/accommodation/where-to-sleep-in-torino-by-city-zone>

NB: Participants wishing to stay within walking distance of the conference venues should book accommodation in the Porta Susa train station area.

Special rates for the Cities Mission Conference participants are available at:

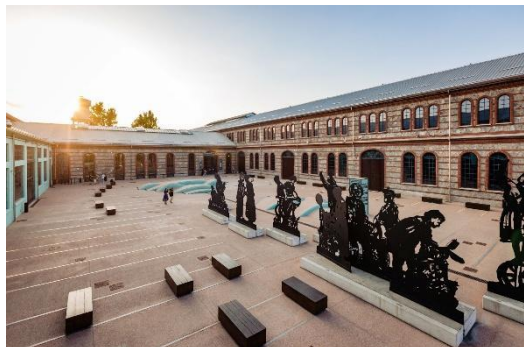

- **Combo** - Corso Regina Margherita 128, Torino
 - Reservation discount code: EUCITIES26
 - *(to be entered directly on Combo website at the time of booking, in the voucher/discount code field)*
- **Camplus Bernini** - Corso Francesco Ferrucci 12/bis, Torino
 - Dedicated rate by booking via e-mail at torino.guest@camplus.it with e-mail subject MISSIONCITIES26 by 31 March
 - 15% discount on the general rate by booking via e-mail at torino.guest@camplus.it with e-mail subject MISSIONCITIES15 after 1 April
- **Camplus Regio Parco** - via Perugia 45, Torino
 - Dedicated rate by booking via e-mail at regioparco@camplus.it with e-mail subject MISSIONCITIES26 by 31 March
 - 15% discount on the general rate by booking via e-mail at regioparco@camplus.it with e-mail subject MISSIONCITIES15 after 1 April.

The Conference venues

OGR Torino - Main Conference location

OGR Torino, the hub of Fondazione CRT, is a unique centre for culture and innovation in Europe, dedicated to artistic and musical, technological and entrepreneurial experimentation.

Former late 19th century train repair workshops, now an industrial archaeological heritage site, **it stands in the heart of Torino on an area of 35,000 square metres** to activate new horizons for collaboration, creativity and conviviality.

© Luigi De Palma

© Piero Ottaviano

OGR Torino - Corso Castelfidardo, 22 - 10128 Torino / Italy
web: <https://ogrtorino.it/en/>

Please note that luggage storage space at the venue is very limited. **Participants are therefore kindly advised to arrange luggage storage directly with their hotel**, especially if departing on the final day of the Conference, 29 May. Particularly, large suitcases or bulky items should not be brought to the venue. For those attending the City Dives on May 27, please be aware that **no storage or cloakroom will be available**.

Getting to OGR Torino from within the city

OGR Torino encourages the use of sustainable means of transport to reduce environmental impact.

- **By public transportation**

Metro line 1 - Vinzaglio stop
Tram line 9 - Inghilterra stop
Bus line 68, 12, 33 or 58 - Inghilterra stop

- **By train**

Torino Porta Susa FS station
10 minutes' walk to Corso Castelfidardo 22

- **Torino Porta Nuova FS station**

Metro line 1, direction "Fermi" - "Vinzaglio" stop
10 minutes' walk to Corso Castelfidardo 22

- **By bicycle**

Bicycle parking available near the OGR ticket office.
Address: Corso Castelfidardo 22, Torino

- **By car**

There are public car parks and several underground car parks nearby:
Parcheggio Nino Bixio - Via Nino Bixio 46
Parking Palagiustizia - Corso Vittorio Emanuele II

Corso Stati Uniti covered car park - Corso Stati Uniti 49

For those with accessible parking needs, the nearest parking spaces for people with disabilities are located on Corso Castelfidardo, in front of number 16A, and in the corners at the intersection of Corso Castelfidardo and Corso Stati Uniti.

Cottino Social Impact Campus

Cottino Social Impact Campus is a physical and virtual knowledge platform based in Torino, dedicated to social impact culture and transformative management. It supports organisations and institutions in integrating social impact into business and governance models.

Founded in 2019 by **Fondazione Cottino**, a private philanthropic foundation, the Campus combines advanced training, applied research, and knowledge dissemination. Its activities focus on five main pillars: Legal Impact, Impact HR, Behavioral Sciences for Impact, AI & Impact, and Impact Measurement and Evaluation.

Cottino Social Impact Campus –
Corso Castelfidardo 30/a - 10129 Torino / Italy

web: www.cottinosocialimpactcampus.org

Getting to Cottino Social Impact Campus

The entrance of the Campus is located next to the OGR Torino Tech wing. It can be reached with a short walk (approximately 2 minutes) from the Conference main venue.

Tourist Information

Turismo Torino e Provincia is the Visitor & Convention Bureau of the city of Torino. There are several Tourist Information Centers in Torino at your disposal from Monday to Sunday:

- Piazza Castello/Via Garibaldi
- Piazza Palazzo di Città C/O Più Punto Informativo Unificato
- Piazza Carlo Felice (in front of Porta Nuova train station)
- Via Verdi
- Torino Caselle Airport

For participants of the Cities Mission Conference 2026 and their accompanying persons, **Turismo Torino** will offer special discounts and benefits for visiting Torino.

Torino the Place to Be

Social media messaging

Please use the full name NetZeroCities (no spaces) and avoid the abbreviation 'NZC'.

If you want to explain something that NetZeroCities is doing, it is best to refer to it as follows:

"NetZeroCities, the implementing platform for the EU Cities Mission" / "The Mission platform, NetZeroCities..."

Avoid: NetZeroCities Mission, NetZeroCities Programme, etc

Appendix - Sustainability Approach

The Cities Mission Conference 2026 is designed and implemented with a strong commitment to sustainability, integrating environmental, social and economic considerations throughout the planning and delivery of the event. The Conference aims to minimise environmental impacts while promoting climate-neutral solutions and responsible event management practices.

Travel to the venue

Participants are strongly encouraged to prioritise climate-friendly travel options, including rail and public transportation. Advice on travel options is available in this logistical pack. Hybrid participation options, including livestreaming and interactive online engagement, increase accessibility and reduce non-essential travel.

Green procurement

Sustainability considerations are integrated into the whole procurement process. Service providers are selected based on their ability to comply with environmental and social sustainability criteria. For instance, selected catering services prioritise seasonal, locally sourced and vegetarian food options, contributing to reduced emissions while supporting local supply chains. The use of sustainable display materials and the reuse of display materials is also encouraged.

Circular economy

The Conference implements measures to minimise food waste and promote responsible consumption practices. Reusable tableware is used, and single-use plastic items such as disposable cutlery, plates and cups are being avoided. Any food surplus is managed through [Too Good To Go](#), a service that enables the redistribution of unsold food to prevent waste. To further reduce material consumption and waste, no promotional goodies or swag are distributed to participants.

Venue selection and energy efficiency

The venue selection process prioritises accessibility, sustainability performance, and energy efficiency standards. The venue has the following ISO Standard Certifications:

- UNI ISO 9001: quality management systems;
- UNI ISO 14001: environmental management systems;
- UNI ISO 20121: sustainable event management systems;
- UNI ISO 45001: occupational health and safety management systems;
- UNI/PdR 125 Guidelines on Gender Equality Management System, which requires the adoption of specific KPIs about gender equality policies in organisations.
